We practice what we believe in

Our beliefs in quality, integrity, equality and sustainability are deep rooted and reflect in our corporate culture.

Mission

To be a customer centric organization and enabler for society through economic and social empowerment.

Values

Savitri Group infuses Integrity, Diversity, Sustainability and Philanthropy in every aspect of its business. People are our foremost asset which encourages us to treat everyone equally and individually.

Vision

To serve the industry with value proposition and innovation.

Unleashing the talent ON WORK, OFF WORK

Our priority is to strategize our people and business in a way to equip them with Technology and Skill.

Discover & Create Yourself

Think Happy

Driving Digital Transformation

Providing complete T&M and Technology Solutions for Communication / IT / Electrical / Telecom Network.

These solutions help users to ensure the quality and reliability of their communication systems and networks while maintaining and optimizing the performance, as well as identify and troubleshoot issues that may arise. They can help identify and resolve issues, as well as ensure that the network and system is meeting the needs of users.

Rejuvenating Technology

Single window solution for Calibration, Repair and Services of Test & Measurement Instruments and Machines.

This may include repairing equipment that is not working correctly and calibrating equipment to ensure that it is operating within specified tolerances. We are committed to providing top-quality repair and calibration services to ensure that your telecommunication equipment is always performing at its best.

Powering Lives & the Future of Connectivity

Providing Rental Services of various Test & Measurement Instruments & other Telecom Solutions.

The purpose of our rental services is to provide convenient and cost-effective technology solutions for customers who need technology/equipment for a short period of time. This can be particularly useful for businesses that need to temporarily increase their work capacity for a special event or project, or for individuals.

Transforming Ideas from Blueprints to Real

Providing Turnkey Project Solutions for Technology / Communication / IT / Electrical / Civil Construction. We offer complete project solutions in a convenient and efficient way for organizations to implement and manage new systems.

Our comprehensive approach of project management involves the design, development, implementation, and maintenance of a system for our clients. We assure to be a single solution provider for delivering a fully functional system that is ready to use upon completion.

Monitoring & Strengthening Network Health

Providing 24×7 Maintenance Services for Telecom and OFC Networks. Overall, maintenance services are an important part of ensuring the reliability and performance of telecom and OFC networks. They help to identify and resolve issues, as well as optimize the performance of the network. Our services include Preventive Maintenance, Corrective Maintenance, Performance Optimization, Network Monitoring, Workforce Deployment etc.

Driving Revolutionary Innovation for a Sustainable Future

Building OFC Networks, FTTH Network, IBS, CCTV, and Surveillance & Tower Infrastructure.

We ensure to follow certain processes like Planning and Designing, Procurement, Deployment, Testing & Commissioning, Maintenance etc. to give our clients a better experience all the time. By focusing on the needs and preferences of our clients and taking steps to continuously improve their experience, Savitri builds strong and long-lasting relationships with our clients.

Paving the Way for Innovation

Manufacturer of best quality OFC / Copper / RF / Networking Products. We produce high quality and reliable products. We offer a wide range of products for various applications, including telecommunications, data centers, and enterprise networks.

We provide customized storage solutions as well that meets their specific needs and requirements, rather than having to use a "one-size-fits-all" solution. This can help users to better manage and optimize their storage systems.

Test and Measurement

Fiber Test

- ◆ OTDR (Optical Time-Domain Reflectometer)
- ◆ Optical Power Meter
- ◆ Optical Laser Source
- ◆ Optical Return Loss Meter
- ◆ CD/PMD Tester
- ◆ Optical Spectrum Analyzer
- ◆ Fiber Inspection and Cleaning
- ◆ Fiber Identifier
- ◆ Visual Fault Locator
- ◆ Remote Fiber Monitoring
- ◆ MPO Tester
- ◆ Attenuator
- ◆ Optical Loss Test Set

Wireless Test

- ◆ Network Performance Monitoring Tool
- ◆ Transport/Ethernet
- ◆ DOCSIS 3.1 Test
- ◆ Copper, DSL, WiFi & Broadband Test
- ◆ Protocol Analyzer
- ◆ Asset & Data Management

Network Test & Certification

- ◆ Antenna Alignment & Monitoring
- ◆ RF Test

Timing & Synchronization

Synchronization Systems

- ◆ Timing Accessories
- ◆ Time Scale System
- ◆ Management & Monitoring
- ◆ Modular Synchronization System
- ◆ GPS Instruments
- ◆ 1U Distribution Amplifier
- ◆ Enterprise Network Time Servers
- ◆ Carrier Grade NTP & PTP IEEE 1588 Grandmasters
- ◆ Embedded Atomic Clocks
- ◆ GNSS Disciplined Oscillators (GNSSDO)
- ◆ System Clocks & Frequency References

Marker and Locator

- ◆ Electronic Route/Marker Locator

Structured Cabling

Fiber Optic Cable Assemblies

- ◆ Patch Cords
- ◆ Pigtails
- ◆ Connectors
- ◆ Adaptors
- ◆ Attenuators

Fiber Optic Jointing Kit

Cabinets, Panels & Enclosures

Fiber Optic Termination Unit

Fiber Optic Splitters

Electrical Cable Accessories

Fiber Optic Accessories & Consumables

- ◆ Splice Protection Sleeves
- ◆ Heat Shrink Sleeves
- ◆ Mechanical Splice
- ◆ Fiber Spool
- ◆ HDPE Duct
- ◆ Duct Coupler
- ◆ Cable Sealing Plug
- ◆ End Plug
- ◆ Duct Rodder

Copper Cable Assemblies

- ◆ Patch Cords
- ◆ Connectors
- ◆ Jack Panel
- ◆ Face Plate
- ◆ I/O

Fiber Optic Media Converters

Fiber Optic Cables

Copper Cables

Coaxial Cables

Coaxial Cable Assemblies

Fusion Splicer

- ◆ Single Fiber/
Ribbon Fiber Splicing Machine

Customized Storage Solutions

5G

- ◆ Wireless Performance Solution
- ◆ Lab and Performance Measurement
- ◆ Cloud and Virtualization
- ◆ Conformance Testing
- ◆ Service Assurance & Field Testing

Cyber Security

- ◆ Network Vulnerability
- ◆ GNSS Jamming & Spoofing
- ◆ Time Security

Fiber Characterization

- ◆ Inspection & Cleaning
- ◆ Optical insertion loss
- ◆ Optical return Loss
- ◆ OTDR Test
- ◆ Chromatic Dispersion (CD)
- ◆ Polarization Mode Dispersion (PMD)
- ◆ Attenuation Profile (AP)

IP MPLS

- ◆ LAB Testing
- ◆ Field Service Testing
- ◆ Protocol Monitoring and Analysis

IOT (Internet of Things)

Enterprise & Data Center

FTTH/PON

- ◆ PON Turn Up and Installation
- ◆ Fiber Testing & Certification
- ◆ Monitoring

Telecom and Infrastructure

- ◆ OFC Turnkey Projects
- ◆ CCTV/ Security Surveillance
- ◆ DAS (Distributed Antenna System)
- ◆ LT/HT
- ◆ OPGW
- ◆ IBS/ Broadband
- ◆ FTTH
- ◆ POI
- ◆ Video Conferencing
- ◆ CATV (Community Antenna Television)
- ◆ LAN/ WAN/SWANIP
- ◆ MPLS
- ◆ DWDM
- ◆ Microwave
